

Product Description

OBEX CORTEX S05000MS is recommended for the protection of hard surfaces against dirt, dust and general light maintenance debris in medium traffic conditions.

Applications

Tiled floors
Wooden floors
Laminate floors

Technical Data

Film backing	Polyethylene (LDPE)
Colour	Blue
Adhesive type	Acrylic
Thickness average	50 micron
Adhesive strength	5 N/50mm

Storage and Use

The film must be stored in original packaging and applied at temperature <40°C
It must be used in a time lower than 9 months from the date of receipt

Application

Surfaces to be protected should be free from dust, oil, solvents or other chemicals
Temperature (surface and surroundings): +15 to +40°C
Remove the film at temperatures of >+5°C
Using laminating machines with rubber coated press rollers to apply this film
Always try to eliminate or minimise film elongation together with the formation of air bubbles and folds during lamination
This film is not suitable for extreme Thermo-forming
This film should be removed 30-45 days after the application date.

Disclaimer

This film is recommended for the protection of hard flooring only
We suggest to our customers an evaluation trial to confirm the suitability use of this product
